Hamburgers on the grill, goodies for sale and Care Center's carnival held in their new outdoor balloons in the air were all part of Heber Valley park.

Heber Valley Care Center Holds

Carnival To Celebrate New Facility

26 Sep 1985

HEBER CITY (Sept. 21) - Balloons, booths and a barbecue were the order of the day today as the Heber Valley Care Center celebrated the opening of its new park and outdoor recreational facility.

In spite of the cool weather, those who attended had a good time, and that was the main purpose of the whole affair

according to manager Stan Magelby. "We wanted to have some kind of function where the patients and staff could have a good time," he said.

Another purpose for the get-together was to show off the new park and to raise money to help pay for some of the improvements. Carnival type booths featuring different games

were provided and grilled hamburgers and hot dogs were available during the day.

Mr. Magelby stated that the event was a success both from the fun and fund raising standpoint. He expressed his thanks to the many merchants and individuals who donated merchandise to the center for the carnival.

Care centers must have 1 staff member 1

5-7-87

By Douglas D. Palmer

Deseret News staff writer

Child care centers must have at least one staff member for each four children cared for, the State Board of Family Services ruled Friday.

In its unanimous decision, the policy-making body refused to accept a

months and toddlers were 18-24 months.

Now there is only one category for all children, regardless of their age.

The proposed change was considered in response to child-care providers who maintained they could not afford to run a center unless they were allowed to care for more children.

The board also approved changes in the height of fences in outdoor recreation areas and the maximum temperature allowed for hot water in the centers.

The standards were changed to specifically require a 5-foot fence or a similar barrier around play areas. To further ensure safety, the standards

licensed child care providers.

Before the board made its decision Friday, about 15 people testified against the proposed policies, saying the policies would jeopardize the health and safety of children. Those speaking included representatives of the State Health Department, the Provo City Fire Department, the Salt
